### Letter from the Editor:

Walking into my second year of Yearbook, I had my heart set on being the Editor-in-Chief. Along this unforgettable journey, I have learned a lot about myself and made so many new friends in the process. The theme has truly brought out the inner Spectrum in me!

Thanks go out to my wonderful staff, supportive family and friends and amazing adviser. Seriously guys, thanks for putting up with my silliness along the way...working on the yearbook for long periods of time makes you a little giddy!

~Amy Johnson

### Letter from the Advisor:

After 8 years of photographing events and classes for Homeschool Connections, becoming the advisor for its yearbook has completely changed my life and given me a totally new perspective on what it means to document history. I already knew that a yearbook was much more than just filling pages with beautiful photographs, but I had no idea of how much more or how much it would take to learn. God had a lot in store for me this year.

It has been an honor and a privilege to work with and learn side-by-side with some of the most artistically creative teenagers I have ever met. We have had a lot of fun together and I believe they have been the real teachers.

I think it goes without saying that I could never have accomplished ANY of what we have done this year without the friendship, direction and support of Deb Hutchinson, whose act WAS and IS still very hard to follow, along with my facilitator and organizational rock, Kris Johnson.

It is my hope that evident on every page is God's perfect design and purpose.
